ABOUT US

LAHA Facility Ltd. was founded in 2014 in the United Kingdom.

The company was founded with the aim to operate, maintain and clean office blocks and hotels, also providing labour exchange services in the above field, primarily in Hungary. Naturally we undertake jobs in other member states of the European Union, too.

We gained our professional experience by operating our Hungarian-based company of the same profile. You may find our references at www.arnoclean.hu. In the past years the company has grown to become a venture that covers the entire scope of building management.

Thanks to our years of experience managing the most diverse properties, flexibility, efficiency and extensiveness became integral parts of our services and work method.

If you would like to know more about our services, feel free to contact us.
